I. PURPOSE

Modine Manufacturing Company (the “Company”) is a global company specializing in thermal management systems and components with a long history of and a strong commitment to operating with the highest ethical standards. The Company’s Code of Conduct (accessible at www.modine.com) (the “Code”) sets forth our guiding ethical principles and reflects our shared commitment to honesty, integrity, transparency and accountability. The Code applies to all directors, employees and those associated with or doing business on behalf of the Company, including the Company’s subsidiaries and affiliates.

The Company is committed to sourcing components and materials from suppliers that share the values expressed in our Code, which includes the respect of human rights. The Company has established a conflict minerals compliance program that is designed to follow the framework established by the Organization for Economic Cooperation and Development (OECD).

In July 2010, the United States passed the Dodd-Frank Wall Street Reform and Consumer Protection Act (the “Act”). Under the Act, all U.S. public companies are required to make certain disclosures regarding their purchase and use of Tin, Tantalum, Tungsten and Gold (together, the “3TGs”). The intent of the Act is to draw attention to the use of minerals mined in the Democratic Republic of Congo or adjoining regions, which directly or indirectly benefit armed groups that are responsible for severe human rights violations, and encourage U.S. companies to cease any use of 3TGs originating from this region that benefit armed groups.

II. SCOPE

This policy applies to all of the Company’s suppliers, globally.

III. POLICY STATEMENT

In order to assist the Company in its efforts to comply with the requirements and spirit of this Act, the Company expects the following of all of its suppliers across the globe:

- To commit to being or becoming “conflict free” by sourcing Tin, Tantalum, Tungsten and Gold from smelters that have been certified as “conflict-free” by an independent third party.
- To obtain declarations and evidence from all sub-suppliers in their supply chain and be prepared to share this evidence upon request from the Company.
- To complete an EICC/GeSI Conflict Minerals Reporting Template (CMRT) certifying the supplier’s conflict-free status and provide supporting documentation regarding the countries of origin of any tin, tantalum, tungsten and gold that the

supplier purchases for the Company. The latest version of the industry standard CMRT can be found at www.conflictreesourcing.org.

- To cooperate with the Company's chosen compliance partner for any given reporting year.

Suppliers that fail to comply with these requirements may be subject to new business hold and a reconsideration of the Company's relationship with the supplier.

IV. COMPLIANCE RESPONSIBILITY

All employees are responsible for supporting the principles contained in this policy and working with fellow employees to continually monitor the Company's compliance. All suppliers that directly or indirectly supply Conflict Minerals to the Company are responsible for ensuring their own compliance with this policy.

V. OTHER (if applicable)

Additional Information and Resources

Additional information on the Company's conflict minerals program can be obtained at <http://www.modine.com/web/en/supplier-policies.htm> or by contacting conflictminerals@na.modine.com.
